TO: Parents, Teachers, and Employees of Hutchinson Elementary School

FROM: Ms. Shanda Beadles, Principal

DATE: August 31, 2011

SUBJECT: NOTIFICATION REQUIREMENTS BASED ON AHERA REGULATIONS

THIS NOTIFICATION LETTER is sent to you pursuant to the requirements of the Asbestos Hazard Emergency Response Act (AHERA) of 1986, as defined in Environmental Protection Agency Regulations, 40 CFR Part 463, to alert (notify) you, that a very comprehensive, detailed Asbestos Exposure Survey (inspection) was made of Atlanta Public Schools' school and auxiliary building/facilities; and a management plan for coping with asbestos-containing material (ACM) (if any) found in each facility was formulated based on the data compiled during the onsite inspection work. This was executed in conjunction with an approved laboratory's microscopy test results on suspect materials which consultants obtained during this inspection work. Certified personnel from the consultant's firm acted on behalf of Atlanta Public Schools for both the inspection and the management plan work.

We are maintaining a copy of each school's management plan in each school office and/or auxiliary building/facility. A duplicate copy of all management plans is also located at 1631 La France Street NE, Atlanta, GA 30307 or phone 404.802.3700.

Management plans are available for review and information at the above location. Please feel free to review the management plans which cover numerous items including but not limited to results of the inspection/assessment work, materials present response actions, scheduled post response action activities, periodic surveillance program, re-inspection activities planned, etc.

Should you have any questions or desire further information, please address those questions to the Local Education Agency (LEA) designee, Yvonne Douglas at 404.802.3720.
